

TI Automotive

HIGH-PERFORMANCE

FUEL SYSTEMS

FLOW THAT THRILLS. HORSEPOWER THAT ROARS. PERFORMANCE THAT EXCITES.

FUEL PUMPS | FUEL MODULES | FUEL PUMP KITS | FUEL PUMP ACCESSORIES

FAST MATTERS

Prowl the streets. Hit the track.
Run boosted or all-motor.
However you roll, TI Automotive
fuel pumps and modules deliver
the feed you need for the power
you demand. Our products deliver
unquestioned fuel flow across a
wide pressure range to support
outrageous horsepower.

SOME OF THE FASTEST VEHICLES PRODUCED AROUND THE WORLD FEATURE OUR TECHNOLOGY.

How do you become a worldwide
leader in automotive fluid
systems? By delivering rock-solid
reliability. By engineering to win.
By bringing decades of technical
expertise and by settling for
nothing less than superior hot
fuel handling performance.

UNBEATABLE PERFORMANCE IN EVERY PRODUCT

FLOW THAT
THRILLS

HORSEPOWER
THAT ROARS

PERFORMANCE
THAT EXCITES

HIGH-PERFORMANCE FUEL PUMPS

- Outperforms all current market fuel pumps
- Award-winning in-tank/ in-line technology featuring:
 - E85 in-tank models with pumping components validated to OEM specs
 - 39/50 DCSS in-tank models
 - GSS line features the popular 255 LPH pump
- High-pressure, high-flow performance
- Designed for engines with more than 500HP

HIGH-PERFORMANCE FUEL MODULES

- Complete drop-in assemblies with a high-performance fuel pump with filtration, level-sensing and storage
- OE-like fit similar to a traditional replacement module
- For use in a wide variety of vehicles, from sports cars to pickups

FUEL PUMP KITS

- High-performance kits for 500+ HP engines
- Award-winning, OE-based technology featuring the DCSS 39/50 Fuel Pump
- Designed as direct-fit replacements
- All components included

FUEL PUMP ACCESSORIES

- Full line of accessories:
 - Filters
 - Wire harnesses
 - Fittings
 - Hoses

MEET OUR MANUFACTURING SITE

CARO, MICHIGAN

The Caro, MI plant is TI Automotive's high performance and aftermarket fuel pump and module manufacturing site. Our fuel pumps and modules are never manufactured or assembled by a third party or sourced from an outside company. Contact us at aftermarket@us.tiauto.com to visit our facility.

- Began manufacturing electric fuel pumps in 1983
- Certified TS-16949 and ISO-14001
- 5 fuel pump assembly lines
- 14 module assembly lines
