

GSL 396

HIGH PRESSURE IN-LINE FUEL PUMP

THE ESSENTIAL UPGRADE

The new GSL396 is the essential upgrade for the popular GSL392/Walbro 255lph in-line fuel pump.

With GSL396, get up to 350lph of flow at 40psi, 13.5 V, compared to 255lph from GSL392. That means the flow at pressure you need to deliver the horsepower you crave. Enjoy EFI compatibility as well as support for turbo and supercharged applications.

GSL 396

PUMP SPECIFICATIONS:

- Upgraded internal componentry and build that exceeds OE specs
- Supports up to 650 horsepower
- 43mm in-line design, fits factory hanger brackets
- Threaded M10 outlet, identical to the GSL392
- Internal check valve to retain line pressure for quick restarts
- Capable of high pressure operation
- Aluminum shell and outlet to resist rust

MORE PRESSURE.
MORE POWER.

WALBRO AUTOMOTIVE FUEL PUMPS ARE NOW TI AUTOMOTIVE

For decades, Walbro fuel pumps were manufactured by TI Automotive. Now, the Walbro name for automotive fuel pumps is TI Automotive. Same performance, quality and reliability that you have come to know and expect.

ABOUT TI AUTOMOTIVE

TI Automotive manufactures a complete line of fuel pumps, accessories, pump kits and fuel modules for the high-performance aftermarket. Approximately two-thirds of the vehicles produced around the world feature TI Automotive's fluid systems products and technology. TI Automotive's award-winning fuel delivery system technology is featured on some of the world's highest performing production vehicles, such as the Bugatti Veyron, Dodge Challenger SRT Hellcat, Dodge Charger SRT Hellcat, Ford GT and Koenigsegg One:1.
